

[Ohashi Junction and Garden Development]

Ohashi Junction was designed with a two-loop structure to connect the Tokyo Metropolitan Expressway Route 3 Shibuya Line. This junction runs approx. 35m above ground, to the Central Circular Route, located about 35m underground—a total elevation difference of around 70m.

As part of environmental initiatives during the junction's construction, rooftop and wall greening projects were implemented. Additionally, Meguro City obtained a road occupancy permit from Metropolitan Expressway Co., Ltd. and developed an approx. 7,000m² urban green space as a multi-level urban park under the Urban Park Act, creating a recreational area open to all.

This project was more than just a road construction initiative, it was a comprehensive urban redevelopment effort for the Ohashi 1-Chome area. Carried out as a "Town and Road Integrated Redevelopment Project," it was driven by the collaboration of four key entities: the Ohashi 1-Chome District Redevelopment Council — a community-led organization, the Tokyo Metropolitan Government—responsible for executing the Type 2 Urban Redevelopment Project, Metropolitan Expressway Co., Ltd.—the infrastructure provider, and Meguro City, which played a leading role in urban planning.

By integrating road infrastructure with urban development, the project successfully reduced exhaust emissions and noise pollution while creating approx. 7,000m² of urban green space. Its innovative approach, including advanced engineering, large-scale greening initiatives, and multi-stakeholder collaboration, has received widespread recognition and high praise from various organizations.

[Major Awards Received]

13th Rooftop, Wall, and Special Greening Tech Awards

Minister of Land, Infrastructure, Transport and Tourism Award (Rooftop Greening Category)

29th Urban Park Contest

Minister of Land, Infrastructure, Transport and Tourism Award (Planning & Innovation Category)

As of March 2025: Received awards from seven organizations.

[Meguro Sky Garden]

◎Development concept: "Meguro City's Sky Garden"

1. A sky garden for exploration and discovery
2. A rooftop garden filled with greenery and fragrance
3. A space for relaxation and harmony

◎Overview

1. Area Approx. 7,000m²
2. Location criteria Rooftop of a road structure (within the road zone)
 - Elevation difference: Approx. 24m
 - Width: Approx. 16–24m
 - Longitudinal slope: Approx. 6%
3. Vegetation
 - Tall trees: 691 (39 species)
 - Medium trees: 1,201 (43 species)
 - Shrubs: 2,876 (45 species)
 - Ground cover plants: 32,365 (73 species)

[O-Path Dream Plaza]

◎Development concept: "Ohashi's Community Hub"

1. Creating a comfortable public space
2. Designing a plaza that fosters community interaction

◎Overview

1. Area Approx. 3,000m²
2. Location criteria
 - An enclosed space surrounded by road structures

[Community Rules]

- ①Smoking is prohibited in both Meguro Sky Garden and O-Path YUME Square.
- ②The walking of pets requires prior registration.
- ③O-Path YUME Square is available for private rental for a fee after the general opening.

Meguro Sky Garden O-Path YUME Square Facilities & Greenery Guide

Ohashi Junction is designed as a "green junction" that contributes to the formation of an ecological network. In addition to Meguro Sky Garden, it features Natural Regeneration Green Space Ohashi Sato no Mori on the rooftop of the ventilation facility and Greens in the City, where creeping fig is planted along the loop walls, enhancing urban greenery.

[Opening Hours]

Meguro Sky Garden 7:00–21:00

O-Path YUME Square November–March: 7:00–17:00
April–October: 7:00–19:00

Flower Blooming Calendar

Flowering period
 Harvest period
 Green fruiting period
 Autumn foliage period
f :Fragrant flowering trees

Plants species	Jan.	Feb.	Mar.	Apr.	May.	June.	July	Aug.	Sept.	Oct.	Nov.	Dec.
Frid Egg Tree				<i>Polyspora axillaris</i>								
Winter Sweet f				<i>Chimonanthus praecox</i>								
Thunberg's meadowsweet						<i>Spiraea thunbergii</i>						
Japanese cornel dogwood						<i>Cornus officinalis</i>						
Japanese apricot(red, white) f	<i>Prunus mume</i>											
cherry okame	<i>Cerasus "Okame"</i>											
Japanese bush cherry	<i>Prunus japonica</i>											
fragrant winter hazel f	<i>Corylopsis sinensis</i>											
kuromoji	<i>Lindera umbellata</i>											
peach(yaguchi, genpei) f	<i>Prunus persica</i>											
Hall crabapple	<i>Malus halliana</i>											
Japanese flowering cherry(Omur-ariake)	<i>Celasus serrulata</i>											
Japanese flowering cherry(Gotenba-zakura)	<i>Celasus "Gotenba-zakura"</i>											
Chinese redbud		<i>Cercis chinensis</i>										
Lady Banks' rose		<i>Rosa banksiae</i>										
Korean spice arrowwood f		<i>Viburnum carlesii</i>										
linden arrowwood		<i>Viburnum dilatatum</i>										
cherry laurel		<i>Prunus laurocerasus</i>										
Spanish Jasmine		<i>Jasminum humile</i>										
Japanese snowball viburnum		<i>Viburnum plicatum</i>										
banana shrub f		<i>Magnolia figo</i>										
rugosa rose		<i>Rosa rugosa</i>										
fragrant snowbell		<i>Styrax obassia</i>										
Japanese viburnum		<i>Viburnum japonicum</i>										
Carolina allspice		<i>Calycanthus floridus</i>										
Japanese snowbell(white, pink)		<i>Styrax japonicus</i>										
Japanese Stewartia		<i>Stewartia pseudocamellia</i>										
bigleaf hydrangea		<i>Hydrangea macrophylla</i>										
eastern valerian		<i>Patrinia scabiosifolia</i>										
cape jasmine f		<i>Gardenia jasminoides</i>										
myrtle				<i>Myrtus communis</i>								
Japanese beautyberry				<i>Callicarpa japonica</i>								
Lady's tresses				<i>Spiranthes sinensis</i>								
Hong Kong dogwood				<i>Cornus hongkongensis</i>								
summersweet clethra				<i>Clethra barbinervis</i>								
kumquat				<i>Citrus japonica</i>								
Crape myrtle				<i>Lagerstroemia indica</i>								
bush clover(Miyaginohagi,shirahagi)												
fragrant olive f												
Christmas rose				<i>Helleborus niger</i>								

Notes: 1. Scientific names are shown in italics, and hybrid names are shown as italicized genus names accompanied by common names enclosed within double quotations.
 Notes: 2. The flowering period may vary depending on the year.

[Seasonal Flowers Adorning the Sky Garden]

cherry

golden face

myrtle

cape jasmine

Hong Kong dogwood

bigleaf hydrangea

bird's-foot trefoil

fringed pink

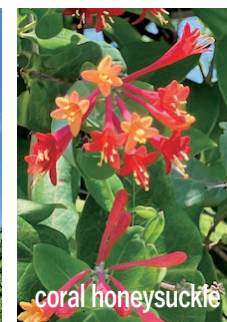

spotted bellflower

ramanas rose

Thunberg's bushclover

coral honeysuckle

Meguro Sky Garden is a loop-shaped rooftop park atop an expressway where visitors can enjoy the seasonal blooms of plant species not often seen in other parks. We hope you will enjoy visiting time and time again.
